

BETTER SCIENCE. BRILLIANT WATER.®

EVOLVE SERIES® **CONDITIONERS**

BETTER SOLUTIONS FOR BETTER WATER.

High quality water is an essential part of your health. Which means it should be clean and clear. And whether your water is supplied by the city or a private well, your water problems might include:

- Iron causing rust stains and build-up
- Hardness creating deposits and scale
- Acidic water leaving blue and green stains and corrosion damage
- Foul odor and taste from various minerals

That's why Evolve® conditioners combine cutting-edge technology and know-how to provide the cleanest, highly efficient water for your home. As your professional Evolve Series dealer, we can help you pinpoint your specific water problems and configure the system that's perfect for your family's needs.

CRYSTAL  RIGHT™

ADVANCED FILTERING MEDIA.

Unlike normal softening resin, these silica-based crystals effectively filter problem minerals while correcting acidic water conditions. Their tolerance for high levels of chlorine also makes them the ideal media for the patented self-cleaning system. Crystal-Right media does all of this while efficiently softening your water.

EVOLVE SERIES CONDITIONERS.

ONE UNIT. ONE SOLUTION.

From elevated levels of iron and manganese to hard water, Evolve conditioners bring cutting-edge water treatment into your home. These conditioners can also correct mildly acidic water conditions and help preserve your home's plumbing and fixtures.

Evolve conditioners combine exclusive Crystal-Right™ media with a self-chlorinating, deep cleaning system. The revolutionary media acts as an exceptional filter, while the patented chlorine generator* cleans the media with each regeneration, providing fresh, delicious water to your home.

All of these features provide the brilliant water only science could produce.
