

BETTER SCIENCE. BRILLIANT WATER.®

EVOLVE SERIES® **SOFTENERS**

THE ART AND SCIENCE OF **QUALITY WATER.**

Water. In its cleanest form, it's as simple as two parts hydrogen, one part oxygen. Unfortunately, getting it this clean, this brilliant is not so simple.

There's a lot of science and even some artistry needed to provide your household with the quality water you deserve. Our Evolve Series® Softeners are proudly made in the USA, and are designed to provide the best water possible.

As your professional Evolve Series dealer, we can help you pinpoint your specific water problems and customize the system that's perfect for your individual household needs.

INNOVATIONS FOR BETTER WATER.

Every household has unique water. Which also means every household has specific water treatment needs. **Whether you're a city water customer or a well owner, your water problems could be causing:**

Rust colored stains on toilets and sinks

Spotty Dishes

Appliances not performing efficiently

Dry skin and hair

Corrosion and build-up in plumbing

Clogged sinks and shower heads

When your water performs better, your appliances and fixtures perform with higher efficiency. Quality water requires less detergent, shampoo and cleaners. With an Evolve Series Softener, your skin will feel smoother, laundry will come out brighter and your household appliances and plumbing fixtures will last longer.

And that all adds up to save you money in the long run!

EVR

ADVANCED, HIGH-PERFORMANCE TREATMENT.

Softening water is just the beginning for the EVR. It's also a self-chlorinating unit that delivers and maintains a higher level of water quality.

Its high-performance resin media and patented cleaning and monitoring technology allows a precise level of free chlorine to pass through the media bed with each regeneration eliminating unwanted tastes and odors.

The EVR also features Evolve's most advanced, patented IQ² controller technology. This innovative controller allows your EVR system to be fine-tuned specifically to your water treatment needs. Saving your household water, and most importantly money.

The result is the brilliant water your household deserves through Evolve's advanced technology and better science.

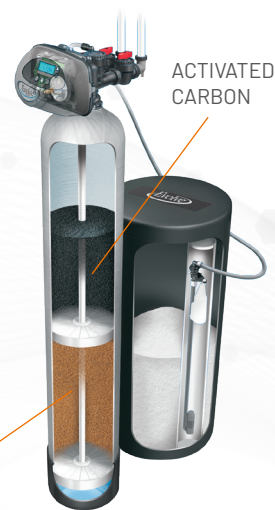

EVRC

KICKING CITY WATER PROBLEMS TO THE CURB.

The EVRC is not only ideal for reducing levels of hardness, it also handles common odor and taste problems associated with city water with its high-performance resin media and activated carbon configuration.

Utilizing split tank technology, this unit combines the power of two medias in one tank, eliminating the need for two systems. The EVRC is designed to be environmentally-friendly while safeguarding your household plumbing, improving taste and eliminating unwanted odors.

The result is more brilliant water through better science, which saves you time and money.

HIGH-PERFORMANCE MEDIA

EVR: THE DESIGN OF FLEXIBILITY AND EFFICIENCY.

Every component, every feature, every innovation of the EVR has been designed to bring the highest quality, most efficient water to you and your family.

PATENTED IQ² TECHNOLOGY IS SMARTER.

- Deep cleaning regeneration only when necessary
- Exclusive features save salt and money
- Vacation Mode - convenient, money-saving
- System notifications
- Only one moving part for easy maintenance
- Battery back-up
- Monitored and recorded water usage history

EVR HIGH-CAPACITY RESIN.

- Powerful and durable resin media
- Eliminates the elements that cause hard water
- Rigorous quality control process for testing the media

QUARTZ UNDERBEDDING.

- Delivers high and consistent flow rates
- Provides accurate and efficient cleaning process

PATENTED, INTEGRATED CHLORINE GENERATOR.

- Ability to self-sanitize
- Low/No salt alarm capabilities
- Monitors every cleaning
- Only available on EVR and EVRC models

LOW-MAINTENANCE BRINE TANK.

- Built-in safety float
- Heavyweight, corrosion-free material
- Dry salt storage
- Less cleaning

MADE IN THE USA

Watch your home's water usage, receive salt reminders, and system notifications right to your mobile phone with our advanced WiFi technology.

Available on select models, Water Efficient Technology is our latest break through in water treatment. W.E.T. is a series of patented features to reduce the amount of water used in conditioners, softeners, and filters. W.E.T. also reduces the amount of salt used in softeners and conditioners. The high-tech controller will also keep track of how much you have saved!

EVRS

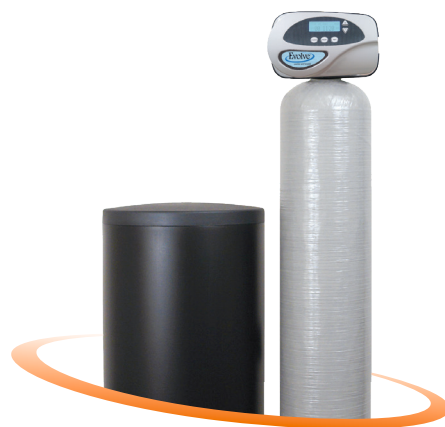

ECO-FRIENDLY. LESS IS MORE DESIGN.

Featuring Evolve's patented IQ² technology*, the EVRS is the newest in green technology using less water and less salt, but operating at peak performance levels automatically.

Unwanted minerals and hardness don't stand a chance while your plumbing and water-using appliances operate at peak efficiencies throughout your household.

Also available as RC (Resin-Carbon) Softener System.

*Excluding the chlorine generator with salt alarm and its other features.

ES

CONVENIENT. ECONOMICAL.

Developed with similar innovations as our more advanced models, the ES is designed for no-fuss, maximum efficiency.

You can still enjoy all of the benefits soft water brings like softer skin and hair, brighter laundry, less staining on fixtures, and longer lasting appliances all in this cost-effective option.

EVOLVE® TWIN SOFTENER SYSTEMS

CAPABILITY CONNECTS CAPACITY AND EFFICIENCY.

Around-the-clock schedules and busy lifestyles require more water and more capacity. That means high-quality water must be available when you want it and need it – 24 hours a day, 7 days a week. Evolve Twin Softener Systems do just that by connecting two units as one complete, higher capacity system.

Twin systems take high capacity water treatment to the next level. Utilizing patented IQ² technology, the system works to ensure a consistent supply of cleaner water and makes use of its full capacity.

Evolve Twin Softener Systems are available in the following units:

• EVR • EVRS • EVRC • EVRCS

The EVR* and EVRS* models are available as a cabinet design for a compact and efficient system.
