

## TAKE YOUR WATER TO THE NEXT LEVEL

Water is an ever-changing resource that we have come to rely on as part of our everyday life. We need it to fuel our bodies and our homes, but with it comes many challenges. Hard water minerals, iron, chlorine, hydrogen sulfide, and many other contaminants can be traveling in your water that cause unpleasant tastes and odors, scale buildup, or staining issues.

These common water problems are not something you have to live with! With the **Hague WaterMax®** system, you can enjoy high-quality water throughout your entire home. Our unique dual- or triple- chambered design allows for multiple filtering and softening solutions in a single unit.

Environmentally Friendly  
High Efficiency Technology

Multi-Purpose Conditioning  
Softens And Filters

Softer Skin and Hair  
Retains Moisture Better

Prevents Damage  
Protect Fixtures And Appliances

**WATERMAX®**

## UNMATCHED PROTECTION

- ① **BUILT-IN BYPASS:** Every WaterMax® comes equipped with a built-in bypass valve with blending capabilities.
- ② **TOUCHSCREEN CONTROLLER:** Easy-to-use interface shows current flow rates, personal settings, and stores your data during a power outage.
- ③ **EVEN WATER DISTRIBUTION:** A custom-engineered baffle distributes the incoming water through the tank to maximize efficiency.
- ④ **CUSTOMIZABLE CHAMBERS:** Choose from our 2 or 3 compartment design to configure the exact combination of medias that solve your specific water needs. (See chart below for more information.)
- ⑤ **SAFETY SHUT-OFF:** Protects your system and home from water overflowing from a system failure.
- ⑥ **GRID PLATE:** A protective layer to shield the air check valve and help ensure a consistent brine concentration.

## CUSTOM BUILT JUST FOR YOU

	<b>Chlorostat (KDF55)</b> Effectively reduces free chlorine, heavy metals, and micro-organisms. Excellent for municipal water supplies.		<b>Birm</b> Puts an end to rust staining by efficiently reducing dissolved iron and manganese levels in your water.
	<b>Sulfurstate (KDF85)</b> Provides filtration to reduce dissolved iron, hydrogen sulfide gas, and heavy metals found in well water.		<b>GreenSand Plus</b> Reduces dissolved iron, manganese, and hydrogen sulfide gas commonly found in well water.
	<b>Ultra-Fil</b> High density filter media made from garnet that collects sediment from your water.		<b>Fine Mesh Resin</b> Water softening media removes calcium and magnesium minerals fast with high capacities.
	<b>PC Carbon</b> Remove bad taste and odors with this high grade media made from coconut shells.		<b>Nitrate Select Resin</b> A media that specifically targets nitrates that run off from nearby farms, golf courses, and other high fertilizer areas.
	<b>Calcite</b> Finely crushed white marble neutralizes acidic water to prevent the aggressive erosion of your plumbing.		<b>Tannin Resin</b> Charged beads that collect organic materials that have mixed with your groundwater.
	<b>Bacteriastat</b> All WaterMax configurations will include this media at the bottom of the tank to prevent any bacteria growth inside the tank. Your system will stay clean with this worry-free addition.
